

THE SPRING OF 1920

Is being ushered in with snow trimmings, but Portsmouth merchants and milliners have the finest offerings for several years. The annual announcements of offerings will be found in the Herald. No need to look elsewhere for the best and latest wearing apparel. Plan to look over Portsmouth's shops this week while the stocks are fresh. You will be surprised at the many varieties and at the reasonable prices considering everything.

EBERT GOVERNMENT LOSING GRIP

THREE HUNDRED ARE KILLED AT ELBERFELD

Communists Take 500 Prisoners--Fighting Continues

(By Associated Press)

Berlin, March 23.—More than 300 persons have been killed in fighting at Elberfeld in the Ruhr region near the occupied zone and in the neighborhood of that city, according to today's advices from Western Germany. The Communists took about 500 prisoners in one place and 200 additional at another point. The dispatches bear out the previous reports that nearly the entire industrial district of Westphalia is in the hands of the Communists although fighting is continuing in some

TWO WOMEN ARRESTED FOR ROBBERY

(By Associated Press)

New York, March 23.—Two young women who described themselves as Mildred Baker of Kansas City and Mildred Bruzer of Baltimore, were ar-

rested today and held as suspects in connection with the robbery of a drug store in Brooklyn Sunday night when two men and two heavily veiled women held up the proprietor at the point of revolvers.

Many local housewives are preparing to procure a good quantity of fresh eggs by water glass during the spring months in order that they will have a supply to draw upon in the winter months. The largest production of eggs will occur in the next three months.

MANY KILLED IN DUBLIN RIOTS

Soldiers Fire Into Crowd After Theatre.

(By Associated Press)

Dublin, March 23.—One of the two persons killed in last night's riot here was a woman, Margaret Dowling, a domestic servant. The other was an unidentified young man. Several persons were wounded including one of the soldiers who was shot through the hand. The conflict according to our correspondent had its origin in the boisterous conduct of a party of soldiers who had been attending a theatrical performance. On leaving the theatre they attracted attention of numerous civilians by their conduct and a steadily growing crowd followed them towards their barracks. When they approached the vicinity of South Leith mond street the firing began. After a few shots had been fired the soldiers entered their barracks but soon reappeared. It is declared firing several volleys as the result of which the fatalities occurred.

Many local housewives are preparing to procure a good quantity of fresh eggs by water glass during the spring months in order that they will have a supply to draw upon in the winter months. The largest production of eggs will occur in the next three months.

Beautiful Easter Wear

Our Garment Section is unusually attractive just now with all that's new and dainty for the Easter Costume:

PRESIDENT HAS WITHDRAWN CONTROL OF COAL PRICES

Question of Prices and Wages Now Up to Commission

(By Associated Press)

Washington, March 23.—Government control over the maximum price of bituminous coal was withdrawn today by President Wilson effective April 1st. At the same time the President wrote the authorities and miners transmitting the majority report of the coal commission and informing them that this report was "the basis upon which the wage schedule agreement between the mine workers and authorities shall be made." April 1st is the date on which this agreement normally would become effective. By removing government control of prices effective that date, the President paves the way for increased coal prices to absorb the average 27 per cent increase recommended in the majority report. The President wrote the authorities and miners that "it was essential to the public welfare that the agreement be concluded at the earliest date practicable so that the uncertainty as to the fuel supply may be ended and that the consumers may be able to make contracts for their coal supply." The President said he assumed that neither party would raise any question and that he was sure that no question could properly be raised as to the binding character of the award by the majority of the commission, notwithstanding that fact that it was not unanimous.

(By Associated Press)

Aix-la-Chapelle, Rhineish Prussia, March 23.—Another battle is reported to be going on between Spartacists and troops of the regular army at Woyel 22 miles northwest of Euskirchen. The regulars, the report says, appear to have been outflanked by the Spartacists.

In the coal prices for peace time per cent and that "unless some general emergency shall arise which has a relation to the emergency, preference of the Lever Act he would not feel justified in fixing coal prices with reference to future conditions of production." The majority report of the commission said the 27 per cent increase absorbed a 14 per cent increase allowed when the miners returned to work and that in addition it would approximately \$200,000,000 a year.

COLBY ASSUMES DUTIES SEC. OF STATE

(By Associated Press)

Washington, March 23.—Rutherford Colby was sworn in today as Secretary of State succeeding Robert Lansing who resigned six weeks ago. There was no ceremony. The oath of office was administered in the presence of Under Secretary Taft who has been in charge of the Department since Mr. Lansing retired. Immediately after Mr. Colby's assuming the office arrangements were made for the resuming of issuance of passports which was stopped ten days ago because there was no one to sign them. Officials estimated that 2000 applications had piled up.

You will not find the right CORSET by casual shopping

Gossard
CORSETS
They Lace In Front

The right corset of today means correct body proportions and an unconscious grace that gives no impressions of coarseness in the finished silhouette. You need the advice of corset experts to attain this coveted effect. Our stock of the world famous GOSSARD CORSET is complete, and our highly specialized corset service will meet your most exacting needs. We recommend and guarantee these original front-lacing corsets as the complete expression of modern coarseness.

AIMS TO DEFEAT FOES OF LABOR

Non-Partisan Political Fight on in Earnest, Declares Gompers.

Washington, March 22.—Samuel Gompers, writing in the current issue of the American Federationist, asserts that labor's non-partisan political fight will be aimed "particularly at defeat of those candidates who are enemies of labor."

"The fight is on," this article said. "Labor has no weapon but the truth, and force has the mass or reason behind it. Its appeal is to the heart and brain of America. Its aim is the welfare of the American nation, the regeneration of the American democracy."

"Labor's partisanship of America has been principles, not to parties or to pacts."

America's anti-labor fight has been "marked by many violations of political place." Mr. Gompers said the injunction process had been "abused until it could scarcely be recognized by its originalists."

"After a year this passed," he added, "since silent battles over the battlefields, yet in all that time, not one measure of really constructive character has been placed on the nation's statute books. The national machinery of government seems to have been paralyzed into either inaction or reaction by the cessation of hostility, and never was the world so starved for great fundamental progress."

When the war ended, Mr. Gompers said, "expansion and evolution were made throughout the world than ever before in the time of our war-time martyrs." Faith in the inherent goodness of democracy was suddenly confirmed, he said, but "grief crushed all this aside."

"Money greed, political greed, greed for place and power—these have been strong in the world, and striking at our ideals," he said.

Declaring that labor must "contend for fundamental principles to the whole people," Mr. Gompers continued:

"Labor is not something impersonal. It is not like a machine nor is it like a corporation. It is the sum total of the lives of all men who are useful to the world."

"Therefore, the interest of labor in legislation is not limited to interest falling between any two given points. Congress cannot do any think thing in which labor is not interested."

KITTERY

Kittery, March 22.—Miss Marie Sherburne of North Berwick passed the week end with relatives here.

Constitution Lodge, No. 88, K. P., meets this evening.

Stephen Paul of Lynn was a visitor to town on Monday.

Mrs. Mille D. Hobbs of Portsmouth was calling on friends here on Monday.

Mrs. Charles Brady of Rockland, Mass., was called here by the death of her wife, Mrs. Daniel Lydon, and was the guest of her cousin, Mrs. Edith V. Wilcox.

The regular mid-week prayer meeting will be held this evening at the Second Christian church.

Mr. and Mrs. Raphael Leavitt of Dame street passed Sunday with relatives in Malden, Mass.

Mrs. Powell of Pleasant street who has been very ill with pneumonia, is reported as being somewhat more comfortable.

Mrs. Alice Hillion of Portsmouth was a visitor to town on Monday.

Mr. and Mrs. Edward Culter have moved into the house on Love Lane recently vacated by Joseph Dubuque and family.

Mrs. C. William Taylor of Portsmouth was calling on relatives in town on Monday.

A daughter was born recently to Mr. and Mrs. Thomas Morrow of Rogers road.

Daniel Lydon is reported as being in very poor health.

Mrs. John R. Whitworth who has been ill with pneumonia was able for the first time in more than two weeks to sit up long enough on Saturday to have her bed made, which is pleasing news to her many friends.

I. O. O. F. NOTES

Ursuline Lodge, No. 72, conferred the United Degree on three candidates at the regular meeting last evening.

On last Thursday evening twenty-two members of this Lodge visited Richard Brown Lodge of Lynn, Mass., to witness the conferring of the First Degree on twenty-five candidates.

119 Pairs Sample Shoes, \$9 and \$10 Values.

GET A REAL BARGAIN AT
FULIS BROTHERS—Fine Shoe Repairing
157 Congress Street.

They report an enjoyable visit and that the work of the evening was very well carried out.

After the meeting last evening, Ursuline held another of those social parties and the members taking part in the hours did their work with fidelity to themselves and to the amusement of the audience.

On Friday evening, March 20th, a District Meeting will be held in Odd Fellows Hall, Portland, in the Englehart Branch of the Order. The Gold, Ruth and Royal Purple Degrees will be conferred on a class of seventy-five candidates.

WOOD TO MACHINE SAW. Also hard wood for sale \$14.00 per cord, sawed and delivered. Wulf Brosch, Phone 1335; W. G. Elliot, Mo. 1-1726.

KITTERY POINT

Kittery Point, March 22.—Mrs. Miriam Ellings will entertain the W. C. T. U. on Thursday afternoon.

J. H. Gross was a visitor in Boston on Monday on business.

The Ladies' Aid of the Baptist church will meet with Mrs. Eliza Tracy on Wednesday afternoon.

Charles Hill of Cambridge, Mass., spent the weekend with his family in town.

The Rev. G. Still will speak on Friday evening with Mrs. George Kimball.

It is reported that Parkfield hotel has been sold.

Mrs. Lucy Weston who resides with her daughter, Mrs. Eliza Currier, had the misfortune to fall on Monday although no bones were broken she was injured in other ways quite badly.

Hopoli Walker of Lynn, Mass., spent the weekend with his parents, Mr. and Mrs. James Walker.

Rev. John A. Weller of Boston returned today after being here on business for a few days.

Mrs. John Graham will occupy the pulpit of the Congregational church on Sunday morning, March 28.

Mrs. James Walker is confined to her home by illness.

Christian Endeavor service of the Chisholm church will meet with Mrs. Justin Sawyer this evening.

SAYS CANDIDATE IS FOR 2.75 BEER

Maine Pastor Sounds Alarm in Address at Dow Celebration.

Portland, Me., March 21.—That one of the republicans seeking nomination for the congress in this district favor 2.75 per cent standard for beer, was charged by the Rev. Bleney S. Hudson, pastor of the First Baptist church today at the Neal Dow Birthday anniversary meeting.

It is known that Mayor Charles B. Cleary, in his canvass replied to Mr. Hudson and other energizers recently that he favored more than one-half of one per cent alcohol content of beer.

Mr. Hudson did not call any man by name.

McCarthy was not large at the meeting despite the fact that Wayne D. Wheeler of Washington, attorney for the Anti-Saloon League, was present.

A number of others attended, drawn by the nature of his subject, the legal aspect of prohibition. Mr. Wheeler declared without reservation that the prohibition amendment was adopted in an altogether legal manner, that prescribed by the constitution, but is now a part of the constitution.

He urged citizens of Maine to be careful that whenever any change is made in the Maine delegation in congress the new man or men stand for prohibition as the Maine delegation has in the past few years. He read messages of endorsement from Stevens, Smith, Hale, and he also quoted William J. Bryan's tribute to Gen. Neal Dow, pioneer of prohibition.

He expressed the hope that prohibition will go world wide in a comparatively short time and his faith that ultimately this will result. He declared that efforts of Rhode Island, New Jersey, Maryland and Wisconsin to have the amendment declared unconstitutional are futile and cited decisions of the United States supreme court and other courts to uphold this contention.

Mr. Wheeler was very positive that prohibition has come to stay and will be accepted by the people generally at least, but he urged increasing vigil to prevent any attack that might set the new law.

Herald classified ads put you in touch with opportunities for employment in the near vicinity.

Candidates Prominently Mentioned for the Republican Presidential Nomination.

MCGRAN MAY FOOL CRITICS IN 1920 BATTLE

San Antonio, Texas, March 22.—Critics in and outside the camp of the Giants may find fault with the general alignment of John McGraw's field but it will take the most careful of experts to pick flaws in his battery material. Among those who have been watching the Giants in the gradual development here these last two weeks the impression grows that McGraw has the greatest set of catchers and major league managers yet has had linked with this the most controversial evidence that he also has five of the greatest pitching veterans with whom it has been the pleasure of any club leader to face the inaugural of a pennant race.

McGraw tried hard to beat the Reds for the pennant last season and he failed but while he was trying hard for the prize then at stake he also was building for the season which soon will be reopened. He realized that if the Reds were to be stopped in 1920 it would require the services of a pitching staff far stronger than the one which failed him last year.

McGraw had shown that he no longer was of major leaguer caliber. He also had demonstrated that he was through. The situation was one which called for the greatest managerial astuteness. Fans in other cities insisted the last and last that McGraw was buying the pennant. Time proved that they were wrong. Big McGraw was recruiting for the big drive of 1920 and he was well prepared.

McGraw tried hard to beat the Reds for the pennant last season and he failed but while he was trying hard for the prize then at stake he also was building for the season which soon will be reopened. He realized that if the Reds were to be stopped in 1920 it would require the services of a pitching staff far stronger than the one which failed him last year.

Gonzales, the tall Cuban, who was acquired from the Cardinals last year, arrived more than a week late and he has not shown much. That has not been due to his lack of condition for he is ready to jump right into the game. But McGraw has not given the call in practice games because there were three other backstops who had been working with the squad from the opening day here.

OBSEQUIES

Mrs. Frances W. Carr

The funeral services of Mrs. Frances W. Carr were held from her late home on East Road, Kittery, Monday at 1 o'clock p. m. Rev. J. Frank Jenner assisted by Rev. E. B. F. Deane, a former pastor now of San Francisco, Cal., officiated the services were Monroe Lewis, Stephen Hobbs, Clarence Cleek, Alfred Sterling, interred in family lot, Orchard Grove cemetery, Kittery, Me., under direction of A. J. Trottier.

Mrs. Eunice J. Lydon

The funeral services of Mrs. Eunice J. Lydon were held from the home of her son, Walter Lydon, Elwin Avenue, Monday at 3 o'clock. Rev. Percy W. Caswell of Court street, Christian church officiating. The deceased were George Munson, Charles Munson, Herman Munson and Bert Dinkwater, interment in family lot, Orchard Grove cemetery, Kittery, Me., under direction of A. J. Trottier.

NOTICE

The following obituaries of the Portsmouth Board of Instruction will be published in the post office of jailor in two of the large elementary schools. Applications must be filed with the superintendent from responsible persons and apply to W. H. Shayton, Superintendent of Schools, at City Hall between 4 and 6 p. m. Wednesday, Thursday or Friday or between 9 and 12 Saturday morning.

GUARANTEED CHICKS

S. C. R. I. Birds. These chicks are from good rugged birds from a heavy winter laying strain, and raised as breeders, and not forced for egg production, produce strong healthy chicks which I am able to guarantee.

I will replace chicks or refund your money on all lost during the critical period. Place your orders early if you plan April, May or June chicks.

A FEW POINTS IN CONNECTION WITH INTERNAL EUROPEAN SECURITIES

One of the effects of the great depreciation from which nearly all European exchanges have suffered since the close of the war has been the building up of what is evidently a popular form of speculation, the purchase of the internal bond issues of the British, French, Italian and German governments and interior divisions. The financial advertising columns of the daily papers in the large cities of the United States give good reason for believing that this movement has grown to considerable size. Owing to the fact that this is an entirely new departure from the past habits and customs of the American people and must necessarily be a field of finance in which not only they but the security disturbing organizations of the country are more or less familiar, it may be wise to examining the situation a little more closely and determine if possible, if the purchase of such securities may be called investment, or whether it is essentially speculation.

It is doubtful whether the average American who purchases a bond of one of the many internal European issues understands the profound difference between such a bond, an external security issued by a European government. Who have been several examples of the latter, the Anglo-French loan being the one with which the public is perhaps the most familiar. In such a loan the fact that it is to be sold to investors who are not citizens of the borrowing country is definitely understood, and clauses are inserted for the protection of alien purchasers of the present outstanding European war issues, there is a fundamental difference which is too important for any investor to pass without careful scrutiny.

In purchasing most of the internal European securities which make up the largest part of the buying movement now in full swing, an American places himself on exactly the same footing as a citizen of France, Great Britain, Italy or whatever country issues the bonds. Should the country in question decide that the quickest means to a sound post-war economy would be through the creation of a tax on capital amounting to say, 50 per cent, the American could not look to his government for the protection of his interests, because he would in fact, have no interests involved and would be different from a citizen of the nation which ordered the tax levy.

There are two main points for an American to bear in mind when contemplating the purchase of these bonds—taxation and currency problems. Several of the former belligerents are so far from a gold basis and have issued such vast amounts of the paper currency against the honest of gold reserves, that it would hardly be surprising if some revolutionary step should be decided upon to bring a restoration of more normal conditions. If it should seem wise to the statesmen of a European nation to reduce the theoretical conversion value of the currency by one-half, the value of these internal securities would be cut in two, while the effect on the external loans, which are expressly stated to be payable in gold or its equivalent, would probably be immaterial.

Similarly, with taxation. In nearly every country where large fortunes are made from the industrial situation created by the war there has been an insistent demand from various quarters for a tax on capital to pay the post-war debts. Statesmen who are harassed with taxes for the excess of the taxes they are able to collect are only acting in a natural and logical manner when they give close attention to such suggestions. Such a tax on capital would be a tax-only in name and would virtually be confiscation, but necessity drives men as well as nations, to do things which in former times they would not have considered as within the range of reason.

In the case of the municipal bonds of the German cities, we have a situation which can be characterized by no other name than to call it gambling. It is said that several of the better known issues have been sold in greater amounts than actually exist, and that dealers who have agreed to deliver the bonds will find it impossible to do so. This will illustrate the crazy character of the business. No doubt in municipal bonds of American cities would be likely to be caught in such a situation as this, but the al-

most known issues have been sold in greater amounts than actually exist, and that dealers who have agreed to deliver the bonds will find it impossi-

ble to do so. This will illustrate the crazy character of the business. No doubt in municipal bonds of American cities would be likely to be caught in such a situation as this, but the al-

WHITE SLAVERS GET TERMS AT ATLANTA

Federal Court Sentences Cataldo and Datz.

Providence, March 26.—Terms of two and one half and two years respectively, in the Federal Penitentiary at Atlanta, Ga., were imposed by Federal Judge Brown Monday on Frank Cataldo and Samuel Datz for violating the Mann White Slave act and for conspiring to violate the same. The indictment charged that the men transported women to a place in Wrentham, Mass., for immoral purposes.

Cataldo was sentenced to serve two and one-half years on each of seven counts and Datz two years each on each of seven counts, the sentences to run concurrently. Each defendant also was sentenced to serve two years each on another indictment, which charged them with conspiring to violate the law. The sentence in the conspiracy case was ordered to run concurrently with the sentences in the indictment charging transportation.

The prisoners carried four Boston girls to the resort.

make a quick profit through a recovery in exchange, which may come, but which certainly cannot be guaranteed to anyone. The first is investment, the second speculation of a particularly dangerous sort, because there are so many elements connected with it which are very imperfectly understood by the average investor not familiar with international exchange.

There is at least one more point to be considered before purchasing internal European bonds. If holders are to reap their expected profits, they must sell the bonds. Who will buy them when a recovery in exchange has brought the profits in holding them for income down to the point earned by domestic securities? Paper profits may be pleasant, but they don't pay grocery bills.

The interest on all such securities is, of course, payable in the currency in which the bond is drawn. That being so, an American desiring to cash his interest coupons must sell them at the same rate of depreciation at which he bought the bond, so that his income so far as interest is concerned is reduced to a very small rate. If he is in a position to hold them for a period that may extend several years he may possibly reap large eventual returns, but it is doubtful if many present purchasers are proceeding with this contingency clearly in mind.

This must not be misinterpreted to advise not to purchase such securities or to imply that those who do purchase them will lose out. It is simply an effort to make clear a few points which cannot be said to have received sufficient publicity in the advertising and newspaper articles which have appeared dealing with this subject. If anyone understands the situation clearly and knows just what sort of an undertaking he is going into, no criticism can attach to the purchase of such securities. It may be that purchasers will profit largely through such purchases, and it is to be hoped that they will, because the conditions which would bring about such profits would be of tremendous advantage to the world in general. All that has been written, for instance, of the underlying strength of British credit and the ability of that nation's statesmen and business leaders to rejuvenate themselves is true. Great Britain, if unhampered, may astonish the world in the next few years. But we have got to a point in the affairs of this world where no nation stands alone or where it can work out its salvation regardless of its neighbors. That is the point which must receive the major share of attention in a discussion of this sort.

TAX EXEMPTION EVILS SUMMARIZED

The American Bankers' Association, Savings Bank Section, calls attention to the admirable outline of the effects of a policy of tax exemption under the federal or any other system of income taxation.

It was given in the course of an address on "The Sources of Revenue" by Mr. Kingman Nott Robins of Rochester in an address before the New York State Conference at Utica, March 18.

Mr. Robins summarized his argument at the close of his address as follows:

"1. Tax exemption of public securities is inexpedient in that the loss in taxes is greater than the advantage in borrowing rates; and furthermore that tax-exemption of quasi-public or government sponsored bonds is in effect a subsidy to a special class in the community, and a subsidy which costs the government much more in loss of taxes than the amount of saving in interest to the beneficiaries of the government."

"In other words, tax exemption is inexpedient in government loans, and a costly form of subsidy to quasi-government loans."

"2. Tax exemption by transferring the tax burden from the holders of

tax-exempt securities to others in the community, violates the principle of taxing in accordance with ability to pay. Tax-exemption, therefore, is not only inexpedient—it is also unjust and uneconomic."

"3. Tax exemption, by rendering immune from taxation those who would otherwise have to pay the best taxes under a graduated income tax, nullifies the working of the income tax. Exemption from taxation of the borrowings of one class in the community inevitably leads to exemption for others, and thus the whole foundation for the taxing system is progressively undermined."

"4. The subsidy of tax exemption of government and quasi-government enterprises puts private enterprises at a disadvantage in competition, and tends to destroy individual initiative, forces reliance on governmental aid and leads inevitably to a degree of state socialism and bureaucratic dominance which must react harmfully on the country."

"5. The fact that a five per cent tax-exempt security will yield an interest return to a wealthy capitalist as a business enterprise paying 12 per cent to 17 per cent disengages the investment of capital in new enterprises to "wring up the direct and indirect effects of tax-exemption are such as will eventually tend to dry up the source of all public revenue, and thus defeat not only the purpose of taxation, but the very ends which the advocates of tax-exemption profess to seek: it is the reduction ad absurdum in taxation policy."

As to current appeals for tax exemption, he had said:

"Tax-exemption is not only repugnant to our American policy of returning to grant special favors to unrelated classes or interests among the population; it is also adverse to all the sound taxation methods violated directly the principle of taxing in accordance with ability to pay," and underlines the very foundations of the income tax, acknowledged to be but "most enlightened and equitable tax."

"The general defense of tax-exemption has rested its case on the public benefit expected to result from the stimulus afforded the enterprise thus subsidized. But this defense, in calling for this subsidy in the public interest, fails to take into account the undoubted fact that tax-exemption is an indefinitely expensive method of subsidizing. Their argument has no weight whatever in the face of this fact, whatever the merits of the cause for subsidization."

"And yet we have the spectacle of able, sane and supposedly public-spirited men urging both state and federal governments to subsidize nearly everybody in the country in the same manner that the former borrowers under the Federal Farm Loan System are subsidized. The exporters want tax-exemption in financing export trade; the construction industries and certain real estate interests want tax-exemption for building loans; self-appointed friends of 'the people' call for tax-exempt bonds to finance personal credits; it is proposed in some quarters that the shipping industry be similarly financed. A bill has been introduced in the New York legislature to exempt from taxation the bonds of our late allies. Again in the urge of aid to their respective causes, the supporters of the various measures ignore the fundamental weakness in their position: viz., that even granting that a subsidy is necessary and in the public interest, there can be no defense for a form of subsidy which may cost the government seven times the benefit conferred and at the same time disproportionately increase the tax burden of all concerned."

And yet we have the spectacle of able, sane and supposedly public-spirited men urging both state and federal governments to subsidize nearly everybody in the country in the same manner that the former borrowers under the Federal Farm Loan System are subsidized. The exporters want tax-exemption in financing export trade; the construction industries and certain real estate interests want tax-exemption for building loans; self-appointed friends of 'the people' call for tax-exempt bonds to finance personal credits; it is proposed in some quarters that the shipping industry be similarly financed. MUST BROADEN ENGLISH CHURCH

London, March 22.—Despite strenuous opposition by several prominent Episcopal church leaders, the Rev. John Henry Jewett, D. D., who formerly was minister of the Fifth Avenue Presbyterian church, New York, has delivered a sermon in Durham Cathedral to a crowded congregation of 7,000 people.

Dr. Jewett preached by invitation of Bishop Weldon, the Anglican Dean of Durham, who believes that intercommunion between the reformed churches will promote a greater diffusion of Christian influence in the world as the war has left it.

Lord Philpott, president of the English Church Union, had raised a protest against this innovation, as being contrary to the National Church Assembly Act and all Anglican clear protest in the cathedral itself when Dr. Jewett addressed the pulpit. The intercessor was forcibly ejected.

Bishop Weldon said afterward: "I have long felt that the Church of England must come into some sort of formal association with the Non-conformist churches. I think all the churches are losing ground because they do not speak with one voice. In fact, they have expended a good deal of energy in opposing one another and the world at large does not listen to them for that reason."

Edward Parker is here called by the death of his aunt Mrs. Carr in Gloucester. He is now located in Old Town, N. Y.

BAKER RAPS TAX OFFICERS

Secretary Writes Gen. Marsh New Army Must Be Lived Up To Now.

Washington, March 23.—Secretary of War Baker has written a letter to Gen. Peyton C. March, chief of staff, relative to the army in which he notes that there are still a number of officers who are not thoroughly imbued with the spirit of the new organization.

"You may well be proud of the record made by the New Haven and its associated lines during the war. I congratulates you upon this achievement. The stern and gallant demands of the war have been met; we are now faced with the problems of peace."

The points out that is impossible to live up to the standard of efficiency which is insisted on in the organization depends on a properly co-ordinated development of the educational, vocational, recreational and character-building system with the American methods of military training.

The secretary's letter which he read and studied by all officers, follows in part:

"I desire that it be impressed on everyone that it is his duty to go out among civilians and make occasions to tell about the new army. That will enable the service to reap benefits that should accrue from such contact, such benefits being the greater, the higher the position, reputation and experience of the officer concerned."

"Committing officers must tell the new army first to themselves, then to their commands and lastly to the community in which they are located."

"It can be said with absolute truth and clarity that the popular response to the new spirit from those in civil life who have been thirdly accustomed with it is warmly and cordial.

"It would be unfeignedly stupid of the army not to use every means to spread this idea. The Army, in doing so, will bring up the standards of the goods and it must find a certain and thorough method of displaying them."

"The educational and vocational system now in operation throughout the army, the elementary, secondary and technical schools which have been established and the actual results which have been already obtained will be brought forcibly to the attention of the entire country. While other agencies may contribute a large share in the task of disseminating this information, it is certain that in the last analysis the army itself must go the greater part of the work."

"Coordinating personal relations primarily by commanding officers, but secondarily by all officers of whatever grade and on whatever duty should be established with the Governor of the state, the mayors of the cities and the municipal officers, with clergymen, school boards, business men and with the various civic, patriotic and fraternal organizations."

"Department in an office is just as important as dress. Talking a great deal, visiting around front the desk to another and the use of the telephone for long personal conversations is objectionable, when it interferes with the work of the office."

"Departments in an office is just as important as dress. Talking a great deal, visiting around front the desk to another and the use of the telephone for long personal conversations is objectionable, when it interferes with the work of the office."

but organization. Each of these agencies should be made an active working force for the building of the army and each of these agencies is willing to become such a force. It and when the leading benefit of the army's plan is properly presented to them."

"The educational, vocational, recreational and character-building system is not a temporary one. It has been designed to form a permanent and essential element in the new army. We must have faith in ourselves before we can hope to secure the confidence and enthusiastic support of our civilian friends who stand ready and willing to help us in our patriotic endeavors to make the new army a distinct part of the new organization."

"You may well be proud of the record made by the New Haven and its associated lines during the war. I congratulates you upon this achievement. The stern and gallant demands of the war have been met; we are now faced with the problems of peace."

The points out that is impossible to live up to the standard of efficiency which is insisted on in the organization depends on a properly co-ordinated development of the educational, vocational, recreational and character-building system with the American methods of military training.

The secretary's letter which he read and studied by all officers, follows in part:

Portsmouth, N. H., Tuesday, March 23, 1920.

The Housing Problem Persists.

The housing problem appears to have taken a definite place among the many pressing questions of the day. It is being discussed in the papers and out of the papers, but thus far the solution of the problem is not in sight. There are many places in New England and other parts of the country where more houses are needed to accommodate the growing populations of cities and towns, and yet investors are hesitating. There is a cause for this, and its discovery and removal are what constitute what has come to be known as the "housing problem."

And we have not to go far to find the cause. Building houses for sale or rent is purely a business proposition and builders and investors must be able to see fair returns on their investments before they will put money into houses. For this they cannot be blamed.

Various plans have been suggested for the encouragement of building operations, one being the forming of corporations to build houses and sell them on the installment plan, and some have gone so far as to advocate state action in spite of the fact that real estate transactions are not properly the business of the state.

At a recent meeting of the Massachusetts Real Estate Exchange in Boston, the housing problem was discussed in its various aspects, one of the speakers being Governor Coolidge, who very truthfully said that if anything is to be done to relieve the situation, and done right, it must be done by private enterprise. He spoke of the desirability of home owning, which is beyond all question, but not all will be able to agree with him that "the present time is more propitious for home building than any previous period." Most practical men are unable to view the matter in that light, otherwise there would be no such thing as the "housing problem."

The real trouble is that with labor and the cost of materials as high as they are it is difficult, if not impossible, to build a house which will sell or rent for enough to yield proper returns on the investment. If this were not so there would be no lack of building where houses are needed. Under normal conditions real estate is one of the best and safest investments, and such investments will be made without urging. When conditions are such that it is necessary to implore men to erect houses there is something wrong, and it will take more than pointing out the need of houses to induce them to do it.

There is loud complaint in many places about rent profiteering. As this paper has before said, there probably are cases of this kind, but there is no reason to believe that rents as a rule are higher than they ought to be and must be when all the conditions are considered. Labor has placed the cost of building and maintenance way beyond what it ever was before, and steadily rising rents is in reality only a case of "chickens coming home to roost."

That is the sum and substance of the whole matter, and explains why building is not keeping up with the demand for houses. If any one can suggest a means of removing the difficulty the housing problem will be quickly solved and it will be no longer necessary to urge the erection of all the houses that are needed.

According to estimates made by the National Woman's Party there will be in New Hampshire, if the suffrage amendment is ratified, very nearly as many women voters as men voters next November. Yet in actual voting it is probable that the men will far outnumber the women.

FIRE DESTROYS 65,000 GAL. OIL

(By Associated Press)

Camden, N. J., March 23.—Fire destroyed a 65,000 barrel tank at the plant of the Vacuum Oil Co. today near Paulsboro. An explosion set fire to the 52,000 barrels of oil in the tank. It burned all night but by hard work firemen prevented it from spreading. The loss is \$300,000.

HORAN OUT WITH BASEBALL SQUAD AT HOLY CROSS

Showing Up Good and Will
Be One of Star Twirlers.

Bill Horan of this city was out with the baseball squad of Holy Cross on Monday when Coach Jessa Burkett partly picked out his diamond warriors for the season. The Boston Post today, referring to the practice period of Monday says:

"The veteran pitcher, Harry McLaughlin, who twirled several victories for the team last year, will be the most dependable twirler on the staff this year. Coach J. J. McDevitt has several other promising pitchers, however, including Bill Horan, former Kent's Hill Academy performer, who passed up a big league contract before coming to the college. Horan is a bushy kid and has shown plenty of power in

the practice sessions thus far. Harold Gill, the former Exeter star twirler, will also be on the regular bravos on the team this spring. The other promising twirlers are George Sheet and Paul Hastings of last year's freshman team; Harold Stelzlebier and Bill Hind, the former Worcester High School pitchers and Jack Walsh, a former Derry High school pitcher."

UNITED FRUIT CO. BUYS OLD SPANISH GUNBOAT

Sale by the government of the Gunboat Ido de Luzon, one of the Spanish war vessels surrendered in Manila bay to Admiral Dewey during the war of 1898, to the American Fruit Company, was announced at the Newport naval station last night.

The Luzon, which was sent to Newport at the time this country entered the European war, did patrol duty during the war and since has been attached to the torpedo station there. The craft, which is 193 feet long, will be used by its new owners as a fruit carrier.

The Luzon was formerly stationed at the Portsmouth Navy Yard.

St. Roy Edward M. Parker, D. D., Bishop of the Episcopal Diocese of New Hampshire, will make his annual visitation to Grace church, Manchester, on Palm Sunday and administer the rite of confirmation to a large class.

FOR SALE—"Iron Age" hand cultivator with rakes, hoes, and plows. Double wheel, but convertible to single. Used one season, in good condition. Price \$10.00. 241 Wibird St. Tel. 231-M.

ALL R. R. MEN IN SPAIN TO STRIKE SONG CONTEST AROUSES MUCH INTEREST

(By Associated Press)

Madrid, March 23.—At a meeting of the railway men early today it was voted by the Portsmouth Community Service Committee to declare a song contest for the best song for our city, arousing much interest and it is hoped that Portsmouth will have a community song of which we will all be proud.

The following rules will govern the contest:

1. Contest is open to all persons.
2. Write at least two verses.
3. A familiar tune may be used or you may write original music.
4. Songs must be in honor of Portsmouth as a city and not limited to any one section or organization.
5. Contest closes at 12 o'clock noon, Saturday, April 3, 1920.
6. Send songs to "Portsmouth Song Contest," Box 518, City Committee and Judge—Mrs. Harold Smith, chairman; Mr. Wallace W. McIntire, Miss Susan E. Bodyleck, Mr. Ernest P. Birbeck, Mr. Charles T. Ernst.

A prize of \$15 will be given to the person whose song is accepted.

The school children as well as the older people are becoming much interested in the contest and flies on the rules of the contest were distributed at all the schools today. Mrs. Harold Smith, chairman of the committee and Judges of the contest has received following letter from Superintendent William H. Slattery of the local public schools:

Dear Madam:

I am interested in the contest which your committee is conducting to secure from the people of Portsmouth a song which will honor our city. I want to offer you the co-operation of the schools which are under the supervision of the superintendent. This song contest appeals to me particularly for three reasons. In the first place it invites the people to predict the song rather than superimposing one in which they had no share.

"Secondly, a community song is the property of every person in Portsmouth and the singing of this song makes us all feel that we stand shoulder to shoulder for Portsmouth. When our athletic teams play against teams from other cities we on the side-lines can help our team to victory by singing our Portsmouth song. There is no reason why this song should not be a part of the program of every gathering of Portsmouth people.

"In the third place I feel that a Portsmouth song could be of great value as a teacher and reminder of the history of our city. Very few people will bother to read us the stories of the men and women who served in the colonies making Portsmouth famous for their contributions of gallantry and high ideals.

"If we tell of these deeds in a song and this song becomes a part of the very wool and wattle of our community life, then will these deeds and ideals be a powerful influence for real Americanism today.

"The people of Portsmouth have a right to be proud of the response she has made to all the calls which the country has sounded. Brawny "Hannibals" will help the contestants to catch the spirit which animated the early inhabitants and which we hope exists today even though it sometimes seems dormant. A good red-blooded song will awaken us all to realization of our past achievements and our present responsibilities in maintaining our record.

"Of course the song will not write itself but I will, therefore, ask the students of the public schools to contribute to the contest.

With best wishes for the success of this project, I am

Yours truly,

WM. H. SLATTERY, Superintendent of Schools.

PEOPLE'S OPINIONS

Wants It State-Wide

Editor:

I have just been reading the article in Saturday's paper entitled "Workers Want Return of Daylight Saving." Now, I have always been strongly in favor of daylight saving, but I think it should be at least state-wide. I am an employee of the navy yard and ride in on the early freight train from Manchester and many mornings we have hard work to reach the navy yard on time. If Portsmouth and the navy yard had daylight saving, we would be an hour late every morning, and would be docked accordingly. The same would be said of the workers who ride in from other cities. At night we leave the train at 4:30. If we had daylight saving at the yard, it would be 3:30. I never reach home until between seven and eight, and many times much later. Think of the long wait we would have at Portsmouth and Rockingham Jet. ("Waitington," as it has been rightly called.) I am very much disappointed that we are not to have nation-wide daylight saving.

OBITUARY

Horace M. Lane

Horace M. Lane, one of Hampton's most distinguished citizens died on Sunday at his home in that town. He was born November 25, 1847, the son of Samuel and Sarah Lane and he has lived the greater part of his life in that town. He was a prosperous farmer and real estate owner and was rated as the wealthiest man in that town. He has been active in town affairs and has held about every office, including representative of the town in the legislature and in the Constitutional convention. He was a member of the Exeter Lodge of Masons and the Grange. He leaves a wife.

Fred L. George

Fred L. George died early this morning at the home of his son, Clarence N. George, No. 460 Bennett street, after a long illness aged 63 years. Mr. George is survived by his wife, one son, a daughter, Mrs. C. R. Hardy of Manchester, his mother, Mrs. Anna George of Sanborn, one sister and two brothers.

Mrs. Kate F. Hoyt

Mrs. Kate Frye Hoyt, wife of Charles J. Hoyt, died at her home, 129 McDonough street, early this morning, aged 74 years. Mrs. Hoyt is survived by her husband, two daughters, Mrs. John Williams and Mrs. Howard Harvey, six grandchildren, one brother, John Harvey and three sisters, Mrs. Mary Emery, Miss Clara Harvey and Mrs. Oliva Blumcom.

Mrs. Dora Badger Shaw

The death of Mrs. Dora Badger Shaw, wife of Edward C. Shaw, occurred on Monday, evening at the Portsmouth hospital, at the age of 33 years. Mrs. Shaw has been seriously ill since the birth of her baby boy, which occurred a week ago and her death is especially sad as besides her husband she leaves four children, her parents, Mr. and Mrs. Daniel W. Badger, five sisters and two brothers also survive.

Mrs. Shaw was born in Newington and resided there and in this city all her life. She was a graduate of the Portsmouth high school, class of 1903 and was a woman of lovable traits of character and will be sincerely missed.

Barbara Shannon

Barbara, the only child of Mr. and Mrs. George P. Shannon, of 67 New Castle avenue, died this morning, aged 1 year, 11 months, 26 days.

MISS MILLER WINS LIMERICK PRIZE

Miss Marion S. Miller in receiving the congratulations of her friends today, as she is the winner of the first prize for the best line of the Boston Post Limerick No. 84, and she has received a check for \$150 in the award from that newspaper. Miss Miller is the secretary of the Portsmouth Community Service and resides at 818 Lexington street. The completed rhyme is as follows:

"There was a muselman from Rome,
Played tunes on a common-place comb;
Yet 'twas sweet melody,
For he played, don't you see,
All about a two suite, sweet home?"

NAVY YARD NOTES

Made Official Call

British Consul General Porter paid an official call at the Charlestown yard on Monday and was received by Rear Admiral Melville O. Dunn, commanding officer of the district and Rear Admiral Samuel S. Robinson, commanding officer of the yard. The marine guard was turned out and as the officer was leaving the yard he was accorded a salute of 11 guns.

Marines from Paris Island
A detail of ten men from the marine guard arrived at the yard on Monday from Paris Island, S. C. Twenty from the same place were sent to the Charlestown yard where the guard has been short and the patrol duty performed by bluesackets.

Nothing Big in Calls

The labor board made a call today for two chauffeurs for the Public Works and one driller for the Industrial Department.

Must Not Discharge Them

Hereafter enlisted men who accept officer's rank in the reserve corps during the war shall not be discharged from the service when their appointment to higher rank has been revoked. They are to be returned to their former positions if they so desire.

HIGH SCHOOL SPORTS SHOULD HAVE BETTER SUPPORT FROM CITY

Spectators at the basketball game lack of judgment on the part of the Saturday afternoon at the Y. M. C. A. woman athletic instructor who accompanied the team. Principal Gray, gymnasium between the girls team of the Portsmouth High and the Portland high, could not but contrast the difference in equipment of the two schools. The Portland High came up with a squad of twelve or more girls, teacher chaperone, a manager, and the male physical instructor who is coach of the school, and they had everything to work with. The local High had their five necessary players one of whom manages the team and their coach, a woman teacher who has given her time.

This is cited as an example of the contrast that the local school has to meet in about all of their games. In every line of sports, the only reason for this is the fact that athletic sports which are essentially a play of every High school work, are so poorly supported here that the teams have to drag along with practically nothing to work with.

Headmaster Lee Gray, who takes a great interest in the sports of his school, is trying to improve this situation and to create in the school that school spirit which means so much to many of the teams who represent the school. He handles the finances of the sports but, with this careful supervision they do not incur expenses. For this reason a benefit concert is to be given on Friday evening by the Bowdoin College Glee Club at the High school Assembly hall for the athletic funds, so that they may keep the expenses down to the very smallest amount. The members of the Glee club will be entertained during their stay by the students of the school and the best outfit of citizens who can have a spare room for the night. It is hoped that all of the citizens, and especially the alumni, who really should show more interest in the school than they do, will give the concert their support and at least purchase tickets.

In connection with the athletic sports at the school it is a good time to correct a false impression which arose over the Haverhill girls basketball team visit here, when they were storm bound for two days here. The impression was that they were left to their own resources and were short of funds. The matter of fact is, as has been proven by correspondence with the Haverhill school authorities since, that the trouble was due to the rather

KETONEN THE MASTER OF DRYDEN

Ketonen the wonderful middle-weight wrestler defeated Bill Dryden in a fine match at Freeman's hall on Monday evening before a large crowd of fans. Dryden worked hard enough but he could not seem to get going and in ten minutes Ketonen who wasted no time, threw him with a full body.

The second fall went to Dryden after Ketonen had broken away from his hold and he was finally pinned in 35 minutes with jack-knife. This was the hardest fought fall and both men worked at their top speed and both were looking for the fall every minute.

The third fall went to Ketonen with a full body after nine minutes of work in which Ketonen was the aggressor all of the time.

At 89 Old Time English Fighter Is Dependent Upon Old Age Pension

Abraham Burrows.

Purses were small in the days when Abraham Burrows met the famous Bendigo and Tom Sayers in the prize ring in England. Now at the age of eighty-nine, he is entirely dependent upon his old age pension. He lives at Carbrook, Sheffield, Burrows who fought under the name of Aaron Jones and John Yearley, in six feet in height. He defeated Bendigo and lost ninth with Sayers resulted in a draw, after three hours and fifteen minutes of fighting, owing to the darkness. Sayers won from him on a foul the second time they met and Burrows in disgust left the ring and never fought again.

BOWLING

ATLANTIC LEAGUE

The Matchine Shop bowling five defeated the Accountant department five in a well rolled match at the Arctic allies on Monday evening in the Atlantic Corporation league.

LONDOS THROWS JOE MALCEWICZ

Springfield, Mass., March 22.—Jim Londos, the Greek champion, pinned the shoulders of Joe Malcewicz to the mat in one hour and 45 minutes tonight in their struggle fall wrestling bout in the Auditorium before a large gathering of fans.

DOWNES DEFEATS JAWSON

Boston, March 22.—Johnny Downes of South Boston proved too clever for Joe Jawson of Milwaukee in their 12-round bout at the Commonwealth A. C. last night, winning the decision. For five rounds Jawson gave Downes a stiff argument, but right to the body began to tell and the Milwaukee man slowed up after the fifth session.

NICHOLAS TAKES A NEW POSITION

Newburyport, March 22.—Nicholas Nicholas, A. C., defeated Haverhill Peter Niemiec Legion 48 to 26. In the other game of 12 here last evening before the largest crowd ever attending a basketball contest in this city.

TAKES A NEW POSITION

Daniel O'Leary for some time connected with the H. & M. dye and paint shop on Market street, as a partner with the Badger Brothers, has entered the employ of Carl H. Palm on Congress street.

BOSTON ORCHID SHOW

HORTICULTURAL HALL

March 24-28

Magnificent Display of Orchids from Private Estates.

Kurume Azaleas from the Arnold Arboretum, never before shown.

Wonderful exhibits of Carnations, Violets and other Flowering Plants.

FINEST FLOWER SHOW EVER HELD IN BOSTON

BIG MEETING IN CHURCH MOVEMENT

At the North Chapel on Middle street this afternoon at 3:30, a meeting will be held especially for all the women in anyway connected with the North Congregational Parish. Mrs. Frank Gaylord Cook of Boston, will speak on the "Challenge to the Church of Today." The meeting is part of the Campaign of the Congregational World Movement, and of the Inter-church Movement. A group of women are coming from surrounding towns; a big meeting is expected and everyone is welcome.

The second fall went to Dryden after Ketonen had broken away from his hold and he was finally pinned in 35 minutes with jack-knife. This was the hardest fought fall and both men worked at their top speed and both were looking for the fall every minute.

The third fall went to Ketonen with a full body after nine minutes of work in which Ketonen was the aggressor all of the time.

WONDERFUL DISPLAY OF NORTHERN LIGHTS

There was a wonderful display of northern lights on Monday evening. They were the most remarkable seen here for years and very brilliant at times. The light came up from the north as beauty seen, and it had the appearance of a shaft of light when at the top broke out into an umbrella formation of bright lights which at times were suddenly tilted. This formation held for some time, and then it gradually became diffused over a greater area of the sky.

The display was so spectacular that they attracted the attention of about everybody and the sky gazers were numerous. The disturbances of this kind are rare, foretold cold weather.

SOUSA COMPLIMENTS EXETER MAN WHO HAS PLAYED FOR 67 YEARS.

Exeter, March 22.—Charles E. Tilton, veteran member of the Exeter Brass band, and known by a good number of Portsmouth residents, who in his 81st year is blowing the bass horn, which instrument he has played in the organization for 67 years, has received a letter of congratulation from John Philip Sousa, in which the famous band leader says he knows of no other case where a member has played so long, and he believed he is the oldest band member in the country. He extended his wish to him for many more years of blowing this horn.

A few weeks ago his friends gave him a complimentary banquet and benefit, at which the letter from Mr. Sousa was read.

Mr. Tilton has been four organizations of the Exeter Brass band, and has been playing in the present one since its reorganization in 1887, and has missed but one parade or concert in which the band has taken part.

During the campaign of 1876 he

played 36 consecutive nights when the band was called on to play at political rallies in Exeter and neighboring towns and cities.

He has played with Charles Knapp

leader of Knapp's band, who was in

1885 a student at the academy and

played with the Exeter band.

On an occasion when the band was playing for an event of the academy, a visitor from afar was inclined to make light of the inscription on the bass drum, which was "Exeter Brass Band organized 1847," and remarked to the leader, that he did not suppose any of the members were then playing what was played when it was organized.

"O, yes," said the leader, "we have

one member who was playing then,

and upon being told so believed that

he was being 'tricked.'

He was told that Mr. Tilton was

then a boy and showing his early talents for music.

"Why, he does not look as old as I,"

said he, "and I am 65," when he was told that he was about 80 years old.

Mr. Tilton is better known as "El" and keeps young by his association with the members. He keeps pace with the young men, and shows no sign of failing musical talents.

MARTIN DECLARED THE WINNER

Boston, March 22.—Harry Martin of Providence won the 12-round decision over Tommy Marks of Boston before a large crowd at Somerville last night.

WINDSOR WINS FROM QUEEN CITY A. A. 56 TO 18

Bangor, Me., March 23.—Lev Watcher's Windsor, Vt., team was much too fast for the Queen City A. A., and won 56 to 18 in City Hall last night. Lev Watcher tossed 9 baskets for the Vermonters.

NEWBURYPORT WINNER OVER HAVERHILL POST, A. L.

Newburyport, March 22.—Newburyport A. C. defeated Haverhill Post, American Legion 48 to 26. In the other game of 12 here last evening before the largest crowd ever attending a basketball contest in this city.

TAKES A NEW POSITION

Daniel O'Leary for some time connected with the H. & M. dye and paint shop on Market street, as a partner with the Badger Brothers, has entered the employ of Carl H. Palm on Congress street.

LIBERTY

BONDS ARE NOW READY

(By Associated Press)

Washington, March 22.—The treasury Department has completed preparation for the permanent Liberty Bond to take the place of the temporary bonds at first issued. They will contain the interest coupon to the time of their maturity.

ITALY IS WILLING TO FORGIVE

(By Associated Press)

Rome, March 22.—Premier Nitti outlined to the Chamber of Deputies the policy of the new cabinet declaring that all Europe is threatened with famine, the 300,000 people in the country cannot produce what they need. Russia the producer of raw material and Germany are practically doing nothing that Russia and Germany should be recognized.

LENINE WANTS TO RULE A STATE

(By Associated Press)

Warsaw, March 22.—An expert report to American and British representatives is that Lenin the present Premier has ambition of being the head of a communist state and for this reason he is anxious to make peace with Poland and other countries.

BORAH IS AFTER WOOD'S CAMPAIGN FUND

(By Associated Press)

Washington, March 22.—Acting upon unpublished reports that large sums of money have been contributed to the campaign of Major General Wood, Senator Borah today called upon Gen. Wood and his campaign managers to show what subscriptions have been made and to what use the money has been put. Senator Borah said that he owes it to the public and party to set at rest these rumors.

COAST GUARD CUTTER CONTRACTS AWARDED

Washington, March 22.—Contracts for the construction of four new coast guard cutters were awarded Monday to the Union Construction Company of Oakland, Calif., on its bid of \$3,100,000 for the four vessels.

The craft will be 240 feet long, over all, 30 feet broad and will have a speed of 15 knots. Their engines will be of the electric drive type now being installed on all new battleships.

Hood's Sarsaparilla Makes Food Taste Good

Creates an Appetite

Aids Digestion

Furnishes the Blood

Promotes assimilation so as to secure full nutritive value of food, and to give strength to the whole system. A well-known Justice of the Peace in Indiana says Hood's Sarsaparilla made "food taste good" as after taking three bottles he eats three hearty meals a day, works hard and sleeps well. It will help you to do this. Fifty years' phenomenal sales prove its merit. Prepared by educated pharmacists. Get a bottle today.

TRY ONE TODAY

Boston to Have Greatest of Orchid Exhibitions

Massachusetts Horticultural Society to Show Plants Valued at Half a Million, to Encourage Flower Growing

TYPES OF ORCHID FLOWERS

1—Cattleya. 2—Odontoglossum. 3—Dendrobium. 4—Cypripedium. 5—Oncidium.

Rare orchids from every country under the sun are to be exhibited at the great Orchid Show of the Massachusetts Horticultural Society, which will be held at Horticultural Hall, in Boston, Wednesday to Sunday, March 24-28. Applications for space will exceed the capacity of the exhibition halls. More than three hundred thousand dollars' worth of orchids, it is estimated, will be shown.

Albert C. Burrage, of Boston, who has the largest private collection of orchids in this country, will make an exhibit from his twenty or more greenhouses at "Orchidvale," near Beverly Farms, which will completely fill the large lecture hall. The hall will be arranged with trees, palms and other tropical vegetation, with the orchids growing on them as they do in their native haunts. Although made to appear like a section of the tropical jungle the various plants will be displayed to show each one to the best advantage. Orchid growers of Boston, western Massachusetts, New Jersey, New York and Philadelphia will exhibit at the coming show.

Asst. Director E. H. Wilson of the Arnold Arboretum announces that that institution will make an exhibit of some 130 Japanese azaleas which have never before been shown in this country. These plants were secured from Japan and are now being prepared in the famous "Sargent greenhouses" at Brookline so that they will be in flower at the time of the exhibition in March. There will also be large exhibits of other plants, but the orchids will be the main feature of the show, more than \$3,500 in addition to gold, silver, and bronze medals having been allotted for prizes for this class of plants and flowers alone.

The purpose of this exhibition is to interest a larger number of people in this most beautiful class of plants. The extension of orchid culture within the last quarter of a century has been remarkable. In large collections there still remains a wide field for the exercise of cultural skill, and it is to develop this that the Massachusetts Horticultural Society is holding this exhibition and offering large prizes.

When orchids were first introduced into the greenhouses of Great Britain, in 1869, having been brought from the West Indies by naval officers and men in the merchant service who found them growing on trees, little was known about them. These "air plants" as they were called, were a puzzle to horticulturists, who tried to raise them in a hot steamy temperature. Up to the middle of last century these plants perished in the hothouses of England almost as fast as they were received. When the conditions under which they grew naturally were understood, it became possible to raise them commercially.

England was far ahead of this country in the growing of orchids, and if the coming Boston orchid exhibition does nothing else it will show the strides made in horticulture in this country, which have placed us on a favorable plane of comparison with the English in the matter of orchid culture. In the records of the Botanic Garden at Cambridge, Mass., mention was made of a single orchid which the garden possessed in 1818. The first record of an orchid exhibited in this country was June 24, 1827, when Marshall P. Wilder exhibited a plant of *Oncidium flexuosum* before the Massachusetts Horticultural Society. The first orchid collection in this country, so far as is known, was that of John Wright Boot, who had a garden where the Revere House in Boston stood until recently, in which was a small lot of orchids sent from England. About 1850 Brantwood of Albury, N. Y., laid the foundation of an orchid collection which was one of the horticultural wonders of America. Isaac Buchanan of Ashton, L. I., was a florist who brought *Cattleya mossiae* from England in 1840.

One great attraction of an orchid exhibition is its variety. Orchids have no such "set" appearance as a rose or a dahlia, for instance, and in painter can do justice to their colorings. They are the most fascinating of the inhabitants of the floral kingdom and in their resplendent flowers of purple and gold, of rose and pink, of buff and brown, of blue and green and violet, of flaming red and snowy whiteness, they will make the coming Boston exhibition one of the greatest and most interesting floral displays ever seen in this country.

SAVING DAYLIGHT TO BRING CONFUSION

Boston, March 22.—Beginning at 2 o'clock next Sunday morning another little worry will be added to the general list that already besets the life of the commuter. At that hour the state daylight saving bill takes effect and clocks and watches are to be set ahead one hour. But the railroads have decided to stand pat on eastern standard time and their present train schedules. Therefore, the dweller upon Long Island, in the state of New Jersey or out Westchester way will enjoy leaving Manhattan at, say, 5 in the afternoon and getting home before 5. But he who must be at work in the city at 8 or 9 will have to take a train an hour earlier than usual.

The railroad officials agree that the thing is likely to be a fearful mess and that they may have to move their head trains forward an hour. In other words, the old 3:15 would leave at 4:15, and, while the suburbanite would be getting the better of it so far as the railroad clock is concerned, the office time piece will be sounding half-an-hour earlier than usual, and Mr. Howson, best known to matinée pleasure relations with the cushion he sleeps, will have to burrow into the bay an hour earlier than usual every night.

P. H. Woodward, general passenger agent for the Long Island Railroad, says its organization will not rearrange schedules until it sees what traffic demands are. Railroad time, he says, is universal and cannot be changed haphazardly.

"When we announced that we'd change our schedule to meet the daylight saving schedule," he said, "we thought the entire country contemplated similar moves, but the local straights have been so conflicting that there seems to be nothing left for us to do but abide by standard time."

The first orchid exhibition in America was a commercial enterprise, organized by New York florists and given in New York City in 1887. Plant and cut blooms of 155 varieties were shown, and these "air plants" as they were called, attracted much attention. In the coming Boston Orchid Show several hundred varieties will be shown, and they come from every country where orchids are known to grow.

The long botanical names of many orchids have probably kept many people from studying this class of plants. The commoner types, however, may be known after half an hour's study of an orchid exhibition. The gorgeous purple, Cattleyas, so often seen in florist's windows, are familiar to almost everyone. The white Cattleyas bring enormous prices, and the late P. L. Ames paid \$1,000 for a single plant. At that time this was the highest sum of that time this was the highest sum paid in this country for an orchid but since then plants valued at \$5,000 have been raised, and \$500 has been paid for the pollen from a single flower which makes diamonds cheap by comparison.

The same sort of legislation is pending in the legislatures of Massachusetts and Rhode Island. Some towns and cities have adopted local measures. While the Connecticut Legislature is entertaining no such proposed legislation, the local councils of Hartford and Putnam have adopted the law and therefore the time will depend upon where one lives in Connecticut.

Washington, D. C., has such a law, but the state hasn't. Pennsylvania has not adopted such a law as a state but Pittsburgh, Philadelphia, Cory, Allentown, Harrisburg, and Easton have, and the suburbs of those cities and the towns that have not followed the lead of the bigger cities are having a terrible time keeping their business affairs and social appointments straight.

THIRTEEN APPEAR FOR JUNK LICENSES

Police Board Grant That Number; More to Come Later.

Thirteen of the men who hold city junk licenses appeared before the Board of Police Commissioners on Monday evening for a renewal of the same. After putting several questions to the applicants in the way of an examination the board voted to grant the same.

Other petitions will be acted on later.

It is understood that the list of ap-

plicants has been increased by two over last year. The board is said to be inclined to make strictness and so informed the several dealers who wish to continue in the business.

LODGE 407

Boiler Makers, Iron Ship Builders and Helpers of America

Will hold a special meeting Wednesday evening, March 24th at 8 p.m. Prominent speakers will address the meeting on topics of interest to all shipyard workers.

LEFT NEW BORN BABE ON STEPS OF HOSPITAL

Taxi Was Hurrying Away When Nurse Answered Door Bell.

The arrival of a baby at the Portsmouth Hospital on Monday evening has caused something of a mystery from the fact that the child did not come into the world by the assistance of the nursing corps in the maternity ward of that institution.

Little could be learned today in connection with the affair from the authorities at the hospital.

However, the child was found between 7:30 and 8 p.m. on the doorsteps by one of the nurses who answered the door bell. The nurse reached the door in time to see that a taxi hurried in the case. The driver was making a getaway at top speed just as the attendant picked up the infant in the doorway. The police are at work on the case today in hopes to locate the parties guilty of the act. The child was less than 10 hours old when found.

SUES LOCAL MAN IN YORK COUNTY

Seeks Commission in the Sale of a Public Market.

A suit has been brought by Fred L. Downs of Seaford, a real estate agent, against P. Cohen of this city to recover an examination of 6 per cent alleged to be due him for the sale of the Seaford Public Market which was sold last week to Vinton parties. The suit was brought through the offices of Shaddell & Eaton. Mr. Cohen has retained Willard & Ford to appear in his behalf.

NOTICE

The Portsmouth Savings Bank of Portsmouth, N. H., issued to Bertha Towle, previous to Dec. 13, 1912, a deposit book numbered 18364, which said Bertha Towle claims to have lost.

Said Bertha Towle requests the issuance of a duplicate book by said Portsmouth Savings Bank and herewith publishes notice of the loss of said deposit book as provided by Chapter 45, Laws of 1905 and Chapter 25, Laws of 1916 of the State of New Hampshire.

SOCIAL GATHERING IN BAPTIST CHURCH

A union meeting of the Golden Rule and the Junior Circle of the King's Daughters was held Monday evening in the Baptist Chapel and 46 members were in attendance. A business session was first held and Mrs. Anton O. Henfield also gave a brief talk on "Citzenship." At its close games were

enjoyed. All entered into the spirit of the occasion and the games were played with a zest. Misses Eleanor Hand and Doris Bailey were in charge. Refreshments of tea, cream and assorted cakes were served by Mrs. John Wright, Mrs. James Pettigrew and Mrs. Edward L. Peterson.

At the next meeting of the Golden Rule Circle a juvenile party will be given, Mrs. Arthur Morton to be in general charge.

BIG TIME TONIGHT

FREEMAN'S HALL

The entertainment of the weekly dance down in Freeman's Hall has an other high class musical attraction for tonight in the Miner & Doyle orchestra of Lowell, Mass. The standard of the music brought here every Tuesday is worth more than passing attention. There is no city in all New England that gets the variety and quality of music as our own city and the big crowds at Freeman's Hall every Tuesday evening in the peoples up predation. A short concert at 8 and then the dancing.

GRAFFORT CLUB NOTES

The program for the meeting on Wednesday afternoon is an especially pleasing one and should be heard by a large number.

At the "Guess Night" of the club on Wednesday evening, April 5, Grace Gage will sing "Romance," by Edward Sheldon. Refreshments will be served. Dr. Roger will speak before the club on "Common Emergencies," next Friday afternoon at four o'clock in the Woman's Building.

SHOOTING CONTEST IS NOW ON.

At the Scout Shooting Gallery, 12 Franklin street, city, winner of which will receive a beautiful China chocolate set. No. of shot 80; distance shot, 32 feet. The person making the greatest number of bullseyes with 60 shots will be the winner. Prize now on exhibition in window of gallery. Contest will close Saturday, March 27.

OSBORNE STILL IN GREYS AT THE NAVAL PRISON

His Last Day Spent in Sawing Wood and Doing Police Duty.

Thomas Mott Osborne will shake the grey prison rig on Wednesday and finally pass out of all connection with the naval prison on that day.

For the past week he has been on the prison records as a third class man owing to the fact that he is a returned prisoner. Today he was engaged in sawing wood and doing police duty. His last exploit in the prison garb found him busy every minute with such duties as comes to any of the court martial men. He later will make a statement as to his final days among the greybacks in the "Frigate."

SUFFRAGE LACK BUT ONE STATE

Washington State Passed the Ratification and is Thirty-Fifth State to Take Action

(By Associated Press)
Bismarck, Wash., March 22--Ratification of the suffrage amendment to the federal constitution was com-

pleted late today in the Washington legislature when the senate unanimously passed the resolution for ratification. The amendment has now been ratified by 35 states.

SUPREME COURT HOLDS FOR OPEN SHOP

Boston, March 22--Photo Engravers' Union, No. 3 and the International Photo Engravers' Union, by a decision of the Supreme Court, handed down today, have been permanently enjoined from interfering with the business of the Folsom Publishing Company and Wright & Co. The unions called strikes against the two companies because of their refusal to enter into agreements with the unions to run their shops on a "closed" basis.

Judge Briley, who wrote the opinion, says: "The right of the plaintiff at all times to hire in the labor mar-

ket, and to retain in their employment such workmen as they might choose, unhampered by the interference of the union acting as a body through the instrumentality of a strike, or of a boycott, or of a black list, is a primary right which has never been abrogated, but remains unchanged by our decisions."

TO BRING BACK BIG AIR SHIP

New York, March 22--Thirty enlisted men of the U. S. naval air station at Rockaway Beach will leave for London soon, to begin training there to bring back the big airship R-38, the sister ship of the one that made the flight to this country, which is being built in England for the U. S.

RESTAURANT MEN WILL CUT PRICES

1000 Organize in New York to Reduce Expenses

New York, March 22--One thousand restaurant keepers in New York City have combined to reduce the price of food to the public. That is the avowed purpose of the Amalgamated Restaurant Owners' Association, composed of the Luncheon and Restaurant Men's League, the New York Restaurant Keepers' Association, the Broadway Restaurant and Bakery Association and the Manhattan Bakery and Restaurant Association.

The first dinner of the new organization was held Saturday night in the grand ballroom of the Hotel Astor, with 600 restaurant owners and members of their families present.

Dr. Forest Lepon, secretary of the united association, was toastmaster and when Francis M. Hugo, secretary of state, was introduced he was hailed as the next Governor of New York. Mr. Hugo outlined the purpose of the new organization which, he said, was for increased efficiency and economy and lower rates to the public. The lowering of the prices to the public is to be no myth in the opinion of Mr. Hugo, for the restaurant owners, through a plan of co-operative buying will be enabled to put their products on the table cheaper. He also emphasized that it was the desire to impress upon the waiters that they were instrumental just as surely as those behind the counter in stores.

SENATE CONFIRMS COLBY FOR CABINET

(By Associated Press)

Washington, March 22--The nomination of Brainbridge Colby, as secretary of state was confirmed by the Senate late this afternoon. No objection was raised to the confirmation which was made without a record vote. The Senate Foreign Relations committee have been conducting secret investigation, but nothing is known of the finding.

At the same time the appointment of Charles H. Crane of Chicago as Ambassador to China was confirmed and the appointment of William H. Joyce of Berkley, Cal., as a member of the Farm Loan Bureau was also confirmed.

WAGE SCALE BOARD ARE ORGANIZED

(By Associated Press)

Coblenz, March 22--Barrelades are being erected in the public parks in Berlin according to advice received here. A rumor is that President Ebert is to ask Philipp Scheidemann to form a new cabinet. Eschen reports that living conditions have become difficult. Radical sentiment still reigns but the reaction is expected if the Reichswehr does not drive out the Reds.

Paris, March 22--Berlin is calm according to reports received by the German Peace delegation here tonight. The situation in the western industrial section and in upper Silesia especially in Breslau is still very serious according to advice. The country population is calm and the peasants in western Germany are preparing to stop the shipment of food stuffs into the cities where there is disorder.

Concluded today by the representatives of the sixteen railroad unions and the Railroad Executives, Dr. T. Winter of the Penn. R. R., has been made chairman. The bi-partisan board is ready to begin work on the investigation of the wage scale and may have on hand a large amount of collected by the Wage board.

FAVORS TEAR GAS FOR POLICE USE

Professor Would Disable, Not Kill, Arrest Resisters.

Baltimore, March 22--The use by police of gas bombs in instances such as a developed fire Friday morning, when a lone Negro, barricaded in a cellar, held at bay 200 policemen for three hours, has been suggested by Dr. Robert W. Wood of Johns Hopkins University.

"I should favor a lacrymatory gas, commonly called 'tear gas' that would temporarily blind the person sought by the police, spelling his shooting aim and making him helpless," Dr. Wood said. "Such a gas could have been projected into the West Saratoga street cellar by the simple act of throwing."

"A plentiful supply of gas grenades ought to be available to the police force at comparatively small cost. However, it should be borne in mind that gas made for war purposes was intended to inflict heavy casualties, while a gas suitable for use by a police force ought not to inflict permanent injury, but merely disable temporarily."

"A sneezing gas would be effective in police work. A sneezing gas mixed with a chloroform gas also should be good, for the former would disclose the criminal's location (in a case like Friday's) and the chloroform gas would render him temporarily helpless."

MORGENTHAU MAY GO TO MEXICO

Washington, March 22--The selection of Henry Morgenthau for the ambassador to Turkey as Ambassador to Mexico is expected to be announced soon. No official confirmation has been received but it is known that his name is among the most prominent mentioned.

WOULD GIVE SERVICE MEN \$1 FOR EACH DAY

Washington, March 22--Payment of adjusted compensation to former service men at the rate of a dollar a day was proposed before the American Legion executive here today, as a substitute for the original proposal of \$50 for every month of service.

GHOSTS OF DRY VOTES HAUNT CONGRESSMEN

Fear Thirsty Constituents Will Demand Reckoning at Polls.

Washington, March 22--At no time since the Anti-Saloon League was making its strongest drive for adoption of the prohibition amendment, have congressmen made such earnest efforts as at present to find out what their constituents think of prohibition.

This is especially the case with those who have been voting "dry" and is due to intimations they have received that candidates are about to take the field in opposition to them with the prohibition issue foremost.

Members who intend to run for re-election want to find out how to declare themselves on the matter. Generally they are making their investigations quietly, either by letters to personal friends and influential persons, or by personal visits to their districts. Virtually none is found who will openly admit that the prohibition question is a cause of political concern.

Privately it is admitted by several that prohibition might be weakened with this fall. Nearly one-third of the membership of the house is now away, many of them to see about their political fences.

It is a pretty hard nut for many members to sit by when they know that opponents are home and riding up the voters against them. An Arkansas member recently sent between 30,000 and 40,000 letters to his constituents to find out how the prohibition and other issues were looking. Replies are beginning to come in. Arkansans went dry two or three years ago and the members of congress from that state have voted that way since, except Dr. W. C. Davis who has observed the operation of the Volstead Enforcement law and that it is not working as smoothly as they hoped for.

The "flu" epidemic turned many "drys" to "wets" in Arkansas as well as in other states. Those who could find whisky claim it was beneficial. Those who could not get it are dissatisfied. One estimate from an influential writer in Arkansas was to the effect that nine-tenths of the people were disappointed at the way prohibition was worked out.

Prohibition fights are on in the mid-south, Georgia, Alabama and other southern states.

STATE BONUS BULLETIN

No Bonus--The treasurer of the following states report that no bonus has been authorized: Alabama, Arizona, Arkansas, Colorado, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Kentucky, Michigan, Mississippi, Missouri, Nebraska, New Jersey, New York, Nevada, North Carolina, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia.

Future Bonus Legislation--The treasurers of the following states expect that a bonus will be authorized: Kansas (1921), Maine (Election of Sept. 1920), Maryland (legislature recently convened), New Mexico (1921), Iowa (1921).

Bonus--A cash bonus is paid by the following states: Massachusetts (\$100), Minnesota (\$16 per month, not less than \$60), New Hampshire (\$160), Rhode Island (\$100); Wisconsin (\$16 per month of service with minimum of \$60), Vermont (16 per month with \$120 maximum non-combat men only).

State Appropriations:

Connecticut: \$2,600,000, the income to be used for the care of ex-service men and their dependents.

Montana: \$200,000 for wounded or disabled men.

Washington: \$500,000 to assist those who have suffered some unusual hardship through military service.

North Dakota: Returned soldiers' fund shall be paid to returned soldiers as compensation and shall be used for the following and no other purpose:

To secure a home or a farm home and improve, furnish or repair same. To make payments on pre-existing indebtedness on such home or farm home or on any improvements or fixtures connected therewith.

To procure farm machinery, seed grain, live stock, poultry and feed for same, and to pay off any pre-existing debts of mortgages against same.

To establish or invest in a business or trade, including the tools of a

JOINT ORGANIZATION RECOMMENDED

Washington, March 21.—Joint organization of management and employees "as a means of preventing misunderstanding and of securing cooperative effort" throughout American industry is proposed by the Industrial Conference appointed by President Wilson in a report to the President made public here Sunday.

The conference in their report said that they have modified the tentative plan of machinery to adjust disputes in general industry by "conference, conciliation, inquiry and arbitration," announced by the Conference on December 29, 1919, and that they have endeavored to develop "amalgams of prevention rather than adjustment of labor difficulties." The modified plan devised since the Conference convened last January 12, it is said, makes machinery available for "collective bargaining with only incidental and limited arbitration." The plan has been extended to cover disputes affecting public utilities other than steam, railroads and also to government and other public employees.

In addition the report analyzes the development of industrial relations, hours of labor, women, in industry, child-labor, housing, wages, profit-sharing and gainsharing, thrift agencies, inflation and high cost of living, agriculture, unemployment and public employment clearing house.

The causes of industrial unrest are set forth as including "the rise in the cost of living, unrestrained speculation, speculator instances of excessive profits, excessive accumulation and misuse of wealth, inequality and readjustment of wage schedules, release of ideal and emotion by the war, social revolutionary theories imported from Europe, the belief that free speech is restricted, the intermittency of employment, fear of unemployment, unnecessarily high infant mortality in industrial centers, loss of personal contact in large industrial units and the elimination of a growing belief on the part of both employers and employees that readjustment is necessary to a wholesome continuity of their united effort."

Industrial problems vary not only with each industry, the report says, but in each establishment. Therefore the strategic place to begin a battle with misunderstanding is within the industrial plant itself. Primarily, the settlement must come from the bottom not from the top. The conference, in expressing its approval of "employee representation," says it is not fit for legislation, because the form in which such representation should take may vary in every plant. For this reason the recommendation is directed solely to managers and employees.

"If the joint organization of management and employee in the plant or industry fails to reach the collective agreement," says the report, "or if without such joint organization, disputes arise which are not settled by existing agencies, then the conference proposes a system of settlement through a National Industrial Board, Local Regional Conference and Boards of Inquiry.

This plan which the Conference says is "based upon American experience and designed to meet American conditions" is national in scope and operation and yet decentralized. It is said to be different from anything in operation elsewhere and employs no local authority except the right of inquiry; its basic idea is stimulation of settlement of issues by the parties in conflict and the enlisting of public opinion toward enforcing that method of settlement.

The Regional Adjustment Conference proposes a board to consist of four representatives selected by the parties to the dispute, and four others in their industry chosen by them and familiar with their problems. It would be presided over by a trained government official, the Regional chairman, who would act as a conciliator. If an unanimous agreement were reached, it would result in a collective bargain, having the same effect as if reached by joint organization in the shop.

Failing to agree unanimously the matter, with certain restrictions, would go to the National Industrial Board, unless the disputants preferred a mutually chosen umpire.

Meanwhile both parties to the dispute have agreed that there shall be

no interference with production pending the processes of adjustment. If the parties, or either of them however, refuses voluntarily to submit the dispute to the processes of the plan of adjustment, a Regional Board of Inquiry is formed by the Regional chairman of two employers and two employees from the industry and not parties to the dispute. This board may subpoena witnesses and records and publish its findings as a guide to public opinion.

The National Industrial Board in Washington would have general oversight of the workings of the plan which in addition to being applicable to public utilities, provides machinery for prompt and fair adjustment of wages and working conditions of government employees. The plan involves no penalties, it is said, other than those imposed by public opinion. It does not impose compulsory representation. It does not deny the right to strike. It does not submit to arbitration the policy of "closed" or "open" shop.

Regarding "employee representation" the report says "the subject has been discussed under such different names and forms as shop committees, shop councils, work councils, representative government in industry, and others, but the Conference says, I prefer the generic term, having in mind the successful application of the principle to various activities outside, as well as within the purely industrial field."

"These suggestions," says the report, referring to the help which the Conference received from both employers and employees, "clearly proceed from a genuine desire that this movement for democratic representation as a substitute for street protest, may spread in accordance with sound principles, and be kept from perverting which would threaten the ideas leading usefulness by making an agency of attack rather than a means to peace."

The idea of "employee representation," the report says, has aroused opposition from two sources, viz: Employers who still adhere to the theory that labor is a commodity, a view which is said to be steadily disappearing, and trade union leaders who regard shop representation as a subtle weapon directed against the unions.

"Employee representation," the Conference says, "offers no royal road to industrial peace. No employer should suppose that merely by installing some system of shop representation he can be assured, without continued effort of harmony and increased production. Doubtless, there will be differences where the plan is adopted as in fact or in name. It is only a means whereby, sincerely, of purpose, frank dealing and the establishment of common interests, may bring mutual advantage."

Relative to collective bargaining, the Conference "sees in avoidance acceptance of this principle the most helpful approach to industrial peace," and states that it believes that the great body of the employers of the country accept that principle. The difference of opinion, it says, appears in regard to the method of representation. Bargains of certain kinds between employers and employees do not lend themselves readily to legal enforcement and the Conference therefore expresses the belief that, for the present at least, enforcement must rest substantially upon "good faith."

Regarding hours of labor, the Conference states, "our experience has demonstrated that they should be fixed in industrial establishments at a point consistent with the health of the employees and with proper opportunity for rest and recreation, there being in all cases provision for one day's rest in seven."

The Conference further finds that from the standpoint of public interest "it is fundamental that the basic wages of all employees should be adequate to maintain the employee and his family in reasonable comfort and with adequate opportunity for the education of his children. When the wages of any group fall below this standard for any length of time, the situation becomes dangerous to the well-being of the state." As for profit sharing being regarded as a complete solution of industrial problems, the Conference says that while it has promise in some directions, it cannot by itself be considered to be of far-reaching effect. Nevertheless, the report says, "the field is one in which sincere experiment may add a real knowledge of desirable procedure."

Touching on the subject of child labor, the Conference says, "sheer prohibition of child labor is at best, only a negative attack upon the problem. It is not thoroughly effective in promoting the economic welfare of the nation, unless the time spent by the child in industry is devoted to adequate schooling and to activity which will develop his physical well-being." The report announces the "startling fact" that of the 5,616,153 illegitimate persons over ten years of age in the United States, more than 68 per cent were fatherless. Attention is called to the fact that the federal government up to the present "makes no provision which assures the non-employment of children in street trades and various blind alley occupations during the time they should be at school."

The Conference states that, in preventing its recommendations "they are not merely designed to tide over a troublous period of economic readjustment. Many of the evils point-

The Heating Bargain! \$131

The IDEAL-Arcola Radiator-Boiler heats the whole house by circulation of Hot Water to AMERICAN Radiators in the adjoining rooms. Kitchen and laundry is also furnished by it—all with one fire! A boon to housewives!

New IDEAL-Arcola Radiator-Boiler

The very special price at which these outfits are offered represents a substantial reduction in the actual costs of these standard and durable AMERICAN Radiator goods. We make these special prices because we want more owners of small homes to become acquainted with the economy and comfort of hot water radiator heating.

Changes a house into a HOME!

If you will investigate you will immediately see that the price at which these IDEAL-Arcola Radiator-Boiler heating outfits are offered is the **bigest bargain in heating equipment**.

The AMERICAN Radiators furnished in these outfits are identical with the AMERICAN Radiators which you see in so many fine homes, office and public buildings.

Why continue to pay the cost of doing without this comfort?

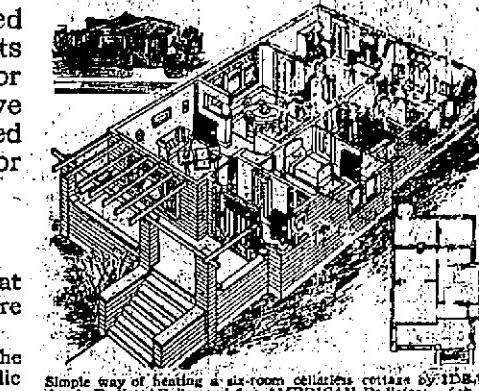

The IDEAL-ARCOLA Radiator-Boiler has taken its place among the most worthy inventions of the age which have contributed to the comfort and welfare of mankind. The introduction of the IDEAL-Arcola Radiator-Boiler has been attended with wonderful success in all parts of the country. Dwellers in every climate have given it the most thorough and practical test throughout the past severe winter. They found its operation to be wonderfully simple, its economy almost unbelievable, and ideal in its results.

We will hold the price down to the lowest level just as long as economic conditions will permit, because we want to have a greater number of people enjoying IDEAL-Arcola heat in their homes. Ask for catalog.

Sold by all dealers.

CHINESE MAN KILLED A RUSSIAN JOKE

"What the same coolie he lets his victim go?"

The correspondent after some weeks in Russia left when he was refused permission to make investigations freely as he pleased.

Herald Went Abroad results.

Amsterdam, March 23.—The correspondent of the Handelsblatt who recently returned from a trip in Soviet Russia gives the following account of his investigations of the activities of the Chinese employed there by the Bolsheviks as executioners.

"Such horrible stories were being told in Europe about these Chinese that I thought it worth my while to learn more about them. As a joke, I asked every one who asked my opinion of the Bolsheviks to show me some real man-killing Chinese; but I was always told that they couldn't produce any just now because they had all gone to the Denkline front."

"I was told the Chinese, if commanded by their own officers were excellent soldiers, but they ran like hares if their officers were killed. Executions are now very rare in Moscow, but, in August, when thousands of counter revolutionaries were slaughtered, it was carried out by the Chinese because the authorities feared that the Russian soldiers would refuse to do the work."

"The Chinese do this work indifferently—like they do all other work they are ordered to perform. They are blind, conscienceless tools in the hands of the men who feed them and pay them and who raised them from the position of coolie in which they came to Russia to the rank of soldier of the guards."

"If the 'Bolshevik,' his name for Bolsheviks, orders something, the Chinese does it and he does it in his typically practical way. He first makes the victim dig his own grave and then shoots him with his revolver. He is not cruel about it, just practical."

"When Boltejek says kill, then he kills with an unperformed face. And when Boltejek says 'you may stop'

GOLD MEDAL MAGNETIC OIL TINCTURE

The world's standard remedy for kidney, liver, bladder and ureteric troubles. Established 1863. All druggists, three sizes. Guaranteed. Look for the famous Gold Medal on every box. Send money on delivery.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

What is the principal city of thousands since Dr. Edwards produced Olive Tablets the substitute for Calomel. No griping salts. Form these pleasant little tablets. They cure the liver and bowels to act normally. They never force them to unnatural action. Dr. Edwards' Olive Tablets are a soothing, healing vegetable compound mixed with olive oil.

If you have a bad taste, bad breath,

feel dull, tired, are constipated, or dullish, you'll find quick and sure results from Dr. Edwards' Little Olive Tablets at bed-time, 10c and 25c a box.

NOTICE TO CONTRACTORS:

SEALED PROPOSALS will be received

by the Town of Greenland, N.H., for

the building of a four-room and half

stone school building. Separate bids

will be received for the

plumbing contract, and for the

electric wiring.

All bids are to be addressed to the

Secretary of Building Committee,

Greenland, N.H. All to be marked

on the outside of the envelope.

Proposals for the Greenland School

and specifications may be obtained

from the office of the Architect, W. S.

McLean, Studio Blg., 110 Tremont St.,

Boston, Mass. A deposit of ten (\$10.00)

dollars will be required to obtain plans

and specifications, deposit to be

refunded when the bid is received.

Plans and specifications may be ob-

tained from the Building Com-

mittee, Greenland, N.H.

Proposed date for awarding con-

tract, April 1, 1920.

TO ORGANIZE AMATEUR BASE BALL LEAGUE

To Develop Players for the Major Leagues

New York, March 15.—A movement to organize a federation of semi-professional industrial, commercial and amateur baseball teams and leagues in the eastern section of the U. S. will be launched at a conference of managers of teams and presidents of various leagues, which will be held at the Hotel Manhattan on Friday afternoon and evening, March 20th.

Arrangements for the meeting are being made by Willard J. Pfau, President of the old New York Industrial Amateur League of 1903-04-05, and who later was secretary of the New York-New Jersey and Atlantic Professional Leagues. Base-ball promoters in cities as far west as Harrisburg, Pa., south to Washington and throughout the New England States and New York state are being invited to attend this conference which is expected will establish the sandlot game in this section of the country on a more progressive and cooperative basis.

The principal purpose of the conference and organization meeting will be to encourage and promote the organization of city associations in every locality in the east whose function shall be to promote league contests in the various classes of the game to determine city champions. It is then proposed to start a series of inter-city contests about Labor Day, to determine state champions, followed by inter-state series during the early part of October, to decide the championships of the eastern United States.

Individually, the proposed organization will endeavor to provide a stimulant and incentive to young baseball players for their future development, as minor and major league players. Within the fourteen minor leagues in existence in 1919, as compared to 38 six years previously, semi-professionals throughout the east feel that they can accomplish a great deal in overcoming the present player shortness in the majors by expanding their own activities to take the place of many of the abandoned minors. According to the sentiment expressed in Pfau in various interviews with managers, the sandlot game can be developed on a higher plane by the provision of championships such as outlined above, the sandlot players taking a greater interest in the game and seeking to improve their qualifications as a rule, there is some basis in the end of the reason to look forward to.

Believing that they will be of great assistance to the major ball in the development of players and of fans those in back of the federation movement plan to appeal to the National Commission for some kind of straight support, possibly in the form of cash prizes to be awarded the best non-amateur teams or, in the shape of a reasonable recompence, for players developed by teams belonging to the federation, and who "make good" in the big show.

Another aim of the federation backers is the provision of a central governing body for the sandlot game to

do its work stabilizer and whose principal purpose shall be to establish the different standards or classes of competition. This will insure contests between teams of equal merit and eliminate games and inter-city championships between teams of superior and inferior strength.

The proposed federation is to be organized on similar lines to the National Sandlot Baseball Federation which has its headquarters at Cleveland and which includes a dozen cities of the Central United States in its organization. Those favoring the eastern movement desire to work in co-operation with the already organized National Federation, but fey the financial obligations of that organization too prohibitive to become popular in the east. Pfau and some others of the eastern promoters will go to Detroit on Monday, March 22 to confer with the board of directors of the National Federation in an endeavor to form some sort of alliance with the National Federation or a modification of certain rules, thereby making it possible for the winners of the proposed eastern organization to play a post-season series against the Central States' winners.

Any baseball manager or owner of any league in this east is invited to attend this conference at the Hotel Manhattan on March 20. Previous to this conference, Pfau will make his trip on Thursday, March 18, to Washington, Baltimore and Philadelphia to confer with base-ball promoters in these cities and adjacent districts. A visit will be made to Boston on Friday, March 19. Baseball managers in these cities are invited to communicate with Pfau at the Hotel Manhattan to arrange to attend these conferences.

Temporary headquarters of the new organization will be at the Hotel Manhattan, but following the conference and organization on March 20 headquarters will be opened in one of New York's office buildings from which the organization activities in the east will be directed.

FOLLOWED THE CAT AT SEA

Grangemouth, Fifth of North Scotland, March 15.—Nine men of the crew of the American cargo steamer Lake Elko, were saved from drowning recently by the instinct of the ship's cat to swim toward the steamer in a storm and darkness when their small boat, bounded at midnight between the ship and the shore. John Shortie, 33, a sailor, 166 Marlboro, Mass., and Oliver Stroud, 17, messroom boy, of North Carolina, were drowned.

The eleven members of the crew had been ashore on leave. They had with them the ship's cat. A storm began while they were ashore, and when they were some distance out on their return journey to the steamer, their boat capsized. In the darkness no one could make out the lights of the ship. Baby, however, with her instinctive desire to get out of the water as quickly as possible, swam directly toward the steamer. The men swam after her and nine of them reached the ship. The other two went down.

The Lake Elko cleared from Norfolk, Va.,

Readers and answerers of Herald classified ads are practical folks seeking quick solutions for immediate needs.

BARTON ON HONOR SYSTEM

Hanover, N. H., March 21.—In a referendum on a constitution drawn up by a student committee, the undergraduate body voted against the adoption of an honor system which involved the obligation of one student reporting the violation of another. A marked interest was displayed in the honor system until it was learned that an article to the above effect had been injected.

The balloting was close throughout the day, with the negative vote winning by only a 5 per cent majority. At present it is not known whether the agitation for the remained, or this year the administration will resort to the old preexisting plan.

The debate on Friday evening made discussion of this subject off, and the largest number of voters in any straw ballot this year came to the polls. Preceding the debate, the general attitude favored the honor system. There the negative side brought out the clause compelling an observer to report a delinquent, and the enthusiasm for the project subsided noticeably.

Oxford Man Who Made Quarter-Mile in 49½

B. D. Rudd

It is probable that B. D. Rudd, of St. Andrews, South Africa, and Trinity College, Oxford, will be a member of the track team that England sends to the Olympic Games in Belgium. This photograph was taken recently. Just after he had made the quarter-mile in 49.14 seconds at the Oxford University meet. J. E. Merle, of the University of Pennsylvania, ran the distance in 1916 in 47.2 seconds but it is said that if the Englishman had been pushed he could have lowered his figures.

PLANNING TRIP TO CONVENTION

Preparations are already under way for the trip of the New Hampshire delegation to the Democratic national convention, which is to open in San Francisco, June 28. The national committee has reserved 10 rooms at the Argonaut hotel for the Granite State delegation of 16 men, providing the eight alternates accompany the same number of delegates. At the same hotel, will be quartered the delegations from Maine, Vermont, Texas, Alaska and Porto Rico.

The rooms will accommodate two persons each, if necessary, three. The price per room, two beds in a room, will be \$8 a day. There will be a slight increase in price per room per day if three persons occupy it. Board can be secured at the hotel, which is operated on the European plan, or elsewhere, and the price depends on what the visitors care to pay.

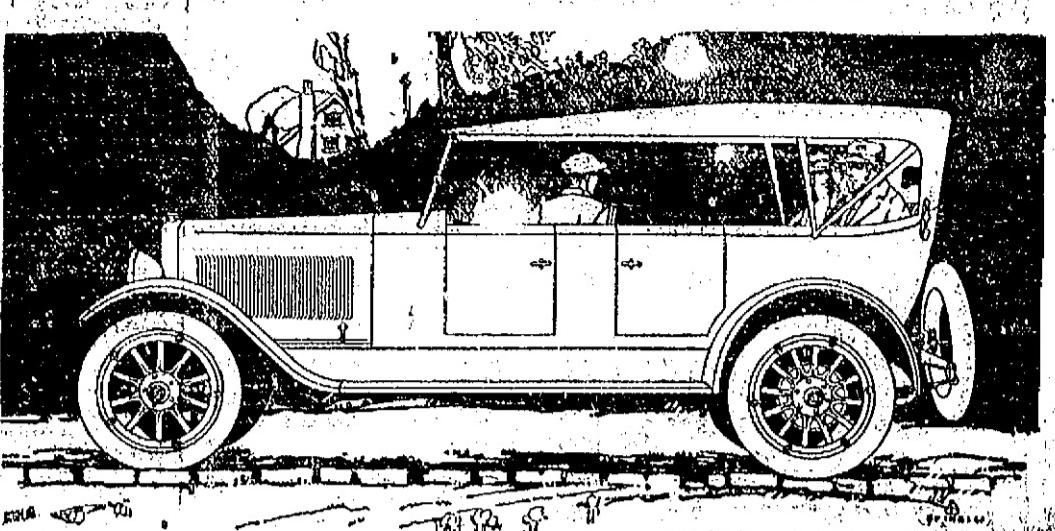

Through no routing of delegates' trains has been made by the railroads. It is expected by National Committeeman Robert C. Murchie of this city, that the eastern delegation, if they combine to make up special trains, will naturally be sent to the Pacific coast by the most direct route to secure the most favorable rates. Mr. Murchie has not received any statement from the railroads regarding rates but he believes there will be no increase over the excursion rate quoted last year from Concord to San Francisco, which was \$165.97, plus tax, round trip, exclusive of sleeping car accommodation. Mr. Murchie estimates the sleeper fare each way at \$20 and the same price per trip for meals on the train, five days eating bill in San Francisco will be \$30. If tickets to the New Hampshire delegation are added \$15 for tips going, coming gallon will be made by Committee-

CHANDLER MOTOR CAR COMPANY, CLEVELAND, O.

and while in Frisco, the total would be \$300. Mr. Murchie says if one adds \$100 for good measure the expense account should not be over \$400 for the trip.

The New Hampshire delegation will probably make no attempt to organize until it reaches the coast in Mr. Murchie will doubtless go on ahead and it is desired he should be present when the election of a national committeeman is held. The re-election of Mr. Murchie as national committeeman is a foregone conclusion from the fact that the Murchie ticket triumphed in the primaries over the Barry-Nease combination which, if elected, had for its purpose the election of Ex-Mayor William H. Barry of Nashua as successor to Mr. Murchie.

There is likelihood that the New England delegations may congregate and travel on a special train, provided the majority wish to go by the same route. National Committeeman Murchie, upon whom devolves the task of making arrangements for the trip of the New Hampshire delegation, says that he expects to be able to secure the convention rate on the railroads for such visitors as may care to accompany the delegation, men and women.

Four years ago the Massachusetts, New Hampshire and Maine delegations made the trip together to the St. Louis convention but as yet no plans have been suggested regarding such a combination of New England delegations for the purpose of securing a special train. It is unlikely that any plans will be made regarding the start of the New Hampshire party until the route is decided upon and the exact figures regarding railroad rates have been received by Mr. Murchie who, as national committeeman, will be the master of ceremonies and who will probably precede the delegation to the coast in order to know that arrangements have been perfected for the welcome of the Granite State men upon their arrival in San Francisco.

Mr. Murchie has stated that persons wishing to accompany the delegation may communicate with him at Concord and that he will advise them as soon as plans are completed for the trip. The distribution of visitors' bills in San Francisco will be \$30. If tickets to the New Hampshire delegation are added \$15 for tips going, coming gallon will be made by Committee-

and upon proper application to

the Commissioner of Internal Revenue cases and upon proper application to which the returns will not be settling forth the reasons why the returns granted except in extraordinary turn cannot be completed.

CABRIGGS CO. CAMBRIDGE, MASS.

FRANCE TO FIGHT FOR CHILDREN

Paris, March 22.—France is at last arousing itself to the danger of dying out. The privately conducted, uphill fight for a higher birthrate has been taken over by the government through the creation of a Higher Council of Nationality. This council of thirty appointed by J. L. Breton, Minister of Hygiene, was asked to act immediately. Mr. Breton, father of five children, is known as a strong friend of large families. Three others of the new cabinet are advocates of measures to increase the French birthrate.

With a total France roughly 1,500,000 lives, a low birthrate, during the war years, cost France 1,272,735 loss of population. These statistics, made into striking pictures to illustrate their effect on the public, industry and war danger are being used in a vigorous campaign by the National Alliance, for the increase of the French population. This campaign is being conducted by letters to members of parliament, posters, a magazine, "The Woman and the Child," and through the many socialist and politically powerful persons interested in the movement.

The plainest sorts of truths are told the French about the decreasing birthrate. The National Alliance and government officials hold that a family should have three or more children. To encourage such families government allowances of \$6 to \$200 francs a year are granted for each function of a notary.

Professor Teresa Labriffre, daughter of the distinguished professor of Sociology, has lately obtained the right to practice law before the courts and, after a struggle of more than seven years, Dr. Adelina Pertet, has obtained permission to perform the functions of a notary.

ITALIAN WOMEN BARRED FROM POSITIONS

Rome, March 22.—Italian women have been barred from 50 positions mostly in state employ by an official announcement just issued by the government. This order excludes women from appointment to the diplomatic and consular services and from becoming members of the Council of state or of several courts.

No reason is given for the declaration of this ban but Italian observers point out that evidently the authorities believe it more than明智 to raise a barrier against the possible aspirations of Italian women for public office.

Professor Teresa Labriffre, daughter of the distinguished professor of Sociology, has lately obtained the right to practice law before the courts and, after a struggle of more than seven years, Dr. Adelina Pertet, has obtained permission to perform the functions of a notary.

To encourage such families government allowances of \$6 to \$200 francs a year are granted for each function of a notary.

POSSIBLE TIE-UP OF THE COAL FIELDS

Indianapolis, March 22.—Possibility of another stoppage of the nation's coal industry, beginning April 1, was declared to exist as a result of the Government's prosecution of operators and miners for alleged violation of the Lever Coal Control Act, in a statement issued tonight by E. D. Logsdon of Indianapolis. Mr. Logsdon is one of five coal operators and one of 125 men, operators or miners, indicted by a Federal grand jury for alleged conspiracy to enhance the price of coal.

Mr. Logsdon's statement declares that according to information received by the operators the Government is proceeding in hypothesis that joint wage conferences are illegal and that this theory forms the basis for a portion, at least, of the charges against the coal men.

May Postpone Conference

If this is true, he said it is probable that conferences to establish a new wage scale effective April 1 will be postponed until after that date, and possibly indefinitely, and that miners will return to work after April 1, when the present contract expires, unless a new scale is agreed upon.

The statement asserts that the Government's action is inconsistent with a statement given out by President Wilson yesterday, when he urged operators and miners to get together under the majority report of the commission which investigated the coal situation. The President in this statement, in effect gave sanction to the idea of collective bargaining in the coal industry, Mr. Logsdon said.

Federal officials tonight said that they had authorized no statement as to the theory on which the Government is proceeding in the prosecution of the miners and operators and declared they would not divulge the changes against those indicted until all of them have been arrested.

Several Operators Surrender

Besides Mr. Logsdon, those arrested today were George A. Vandyke, H. B. Neal and W. H. Tobin of Indianapolis and William Zelley of Brazil, Ind. Mr. Logsdon and Mr. Zelley surrendered to the officers, while capshes were served on the others. Carl J. Fletcher of Indianapolis surrendered to the United States marshal yesterday. Each of the operators furnished bond for \$10,000 and was released pending arraignment May 4.

It was said by the marshal's office today that capshes for the arrest of all the 51 Indiana men under indictment now are in the hands of the officers and that they will be served as soon as possible. Capshes for men in Illinois and Western Pennsylvania, who are involved in the charges will be mailed to those States for service by United States marshals.

DENIKINE MEN FLEEING FROM RUSSIA

Novorossiisk, Russia, March 15.— Fifty thousand refugees from all parts of Southern Russia have been camping in the streets of Novorossiisk for several weeks waiting for transportation to take them across the Black Sea to a place of safety. Most of them are families of officers and leaders of the army of Denikine. All the resources of the American Red Cross mission to South Russia have been

President Wilson recently appointed Mrs. Estelle V. Collier Collector of Customs for Salt Lake City over a field of nine candidates. She is the first American woman to hold such an office. Mrs. Collier, who is chairman of the Democratic Women's State committee, is the mother of four children. Her husband is a mining engineer.

Professor Teresa Labriffre, daughter of the distinguished professor of Sociology, has lately obtained the right to practice law before the courts and, after a struggle of more than seven years, Dr. Adelina Pertet, has obtained permission to perform the functions of a notary.
